

NEW YORKISMS.

From Our Own Correspondent. NEW YORK, Sept. 29. The Prospective Senator from Virginia, the Hon. Horatio Greely, is guilty of ingratitude. The Woman's Suffrage Association and the Societies have both treated him well. They have invited him to collations and receptions. They have tea-and-toasted him; they have foreborne showing anger at the impertinences of his reporters; they have wheedled him as pertinaciously as though he were personally as fascinating as the lamented Mr. Raymond. At a breakfast which he recently attended, Mrs. Stanton herself asked him if he took sugar in his coffee, and the rude-like accents of Miss Anthony inquired whether his egg was soft enough. After such propitiations, it was natural to conclude that he would show some spark of appreciation. It was pardonable in society to believe, after he and the progressive spirits of East Twenty-third street had exchanged pictures, and, indeed, after their kindnesses in company—like a virtuous satyr surrounded by a bevy of immaculate, middle-aged, ampy-browed nymphs—it was pardonable in society to believe that the great lie-natter of the Tribune would not turn his back upon his own profession. But the hearts of editors-in-chief, when they once commit themselves to such courses of duplicity, are twice as deceitful and ten times as desperately wicked as the hearts of less tempted wayfarers. After being fed with the best butter and honey of the association, he permits the association to appear in his newspaper that women, in the gross, are sharp-nosed, unqualling-eyed, pouncing set of creatures. This is more than uncomplimentary; it is unkind. If Mr. Greely intends, as is hinted, to represent Virginia in the Senate, how can his constituents place confidence in him, when he thus notoriously abuses his entertainers before the roll and coffee with which they regaled him are well digested?

A Ritualistic Rev. is fermenting at St. Alban's Chapel and Christ Church. St. Alban's is presided over by Father Morrell and Christ Church by Dr. Ewer, the divine who some months ago proclaimed Protestantism a failure. The difficulties both between these gentlemen with each other, and between them and the other Episcopal divines who disapprove of ritualistic services, are threatened to bring complaint against them before the Convention, are ripening just in time for that meeting which is to commence next Wednesday. If these complaints be made, these two black sheep may expect to share in the brilliant opprobrium which recently fell to the lot of the younger Tyng, and St. John's Chapel will be the scene of a holy warfare between the High and the Low Church. On Monday a private caucus of some of the clergy of the Low Church branch of the communion was held in the Bible House, but no definite plan of action was adopted. People who are not ritualists are greatly scandalized at what they term the "doings" at St. Alban's. The genuflections are of the most athletic and complicated description, and I should most emphatically describe as muscular the Christian who participate in them. As for the congregation, every stranger in New York who has an equal admixture of vanity and curiosity is presumed to go at once to St. Alban's. The seats are all free, and the front ones ways crowded an hour before the performances—that is, the services—commence. Placards in every page request you to remember that you are expected to behave as though you were in the presence of God Almighty; but I am afraid this adjunction is lost upon the majority of the youth. If worshippers were requested to dress as though they were in that same Presence, it might be a little more to the point. A dialke to the parting of the hair of the masculine head in the middle, so that were the line continued, the face would be bisected, may be a predicament. An indication of an extreme of fashion, however, the custom is one that would hardly be looked for in a youthful religious. Yet there it is at St. Alban's. So much so that were I informed that such a young man was extremely pious, and extremely addicted to middle partings of the hair, I should conclude at once that he belonged to the Sodality in connection with that notorious chapel.

Dr. Ewer, who rules at Christ Church, is looked upon by Father Morrell something in the light of an interloper. The good Father (so addressed by his sheep) claims to have been in the field before him, to have created, in fact, the Ritualistic role in this country. The Episcopal Convention will therefore probably find a quarrel within a quarrel, and the theological stage will probably witness a grand transformation scene.

Kitchen-Cabinet Cutlery. This is the not very felicitous name given to an exhibition of silver-plated table cutlery in the window of a Broadway jeweller. It purports to be a present from the workmen of a Massachusetts factory to the President, and is valued at two thousand dollars. Some of the handles are of mother-of-pearl, and some of ivory, and the chasing upon them is said to have occupied all of six months' labor.

Some very extraordinary circumstances have been brought to light in the examination into the Meade Abduction Case.

Mrs. Meade, of Brooklyn, it will be remembered, charges Mr. J. W. Gould, the broker at No. 55 Wall street, of this city, with having, on the fifteenth of the present month, taken her to Newport Hotel, Staten Island, and there committed against her an offense the particulars of which it is unnecessary to enumerate. She avers that the offense was committed whilst she was under the soporific influence of soda-water and tea. Now tea is a sedative, and soda-water may be soporific. Again, Mrs. Meade's nature may be an exceptional one, so that what would produce no results at all in a more happily constituted physique would produce the direct result in her. We all know the strange tricks that chloroform and laughing gas play patients of exceptional temperament. At any rate Mrs. Meade swears, when the stupefying effects of the tea and soda-water had worn off, and she was her own self again, that Mr. Gould expressed penitence for having yielded to temptation, and further explained, in the presence of the attendance were five thousand dollars which Mrs. Meade's mother-in-law had promised him, in case of his doing what he had done, in order that Mr. Meade might obtain a long-wished-for divorce. In evidence of the violence that had been offered, the complainant displayed to the astonished eyes of Justice Dowling, (before whom, at the Tombs palps, the examination took place), a broken bracelet, a smashed breast-pin, and a pair of dislocated earrings. To-day the case is to come up again, when the witnesses for the prosecution will be examined.

The Last of the Central Park Garden Concerts was given last night, and Mr. Theodore Thomas and his orchestra will immediately commence a series of concerts throughout the principal cities of the Union, returning here probably in the winter and continuing their Sunday evening entertainments at St. Nicholas Hall. Mr. Levy has been the great card all summer, after two and being encored every time. For this he was well paid, receiving, I am told, the sum of one hundred dollars in gold for every performance. This is equal to the salary he drew at the London Crystal Palace, and since the first question always asked in regard to any artist, from a poet down to a circus-rider, is, "how much does he get?" I waive curiosity, and being encored every time. For this he was well paid, receiving, I am told, the sum of one hundred dollars in gold for every performance. This is equal to the salary he drew at the London Crystal Palace, and since the first question always asked in regard to any artist, from a poet down to a circus-rider, is, "how much does he get?" I waive curiosity, and being encored every time.

Mr. Flak's Newspaper. There are those who say that they know who are to constitute the staff upon that newspaper whose proprietor and editor-in-chief is James Flak, Jr., and the first issue of which is yet to leave the press. I profess to no such knowledge, but I "guess" Mr. Taylor will not be the theatrical critic, nor Mr. Burfield the cartoonist. They might be called the "Bible Express," and in time supplant the "Dime Miscellany." I can imagine a first-class novel for the first editions, called the "Brigand of Wall Street; or, the Confessions of a Commodore."

Miss Loose-Heel Western celebrated last night her one hundredth consecutive

performance in this city, and her nine hundred and ninety-ninth impersonation of "Lady Isabel" and "Madame Yve." True, the advertisements state the number roundly as a thousand, but after long deliberation, and by dint of making patient inquiry at the box office, I am inclined to think this was only done for effect. I understand that Miss Western never plays the part now unless by particular request. It is so expensive. During the last eight years she has pulled so many shawls to pieces in the third act, where "Lady Isabel" sits unweaving by the fire, that the supply is falling, and camel's-hair is dearer than ever. Don't you see?

The "Selling Rate." Just one bit of information apropos of the Gold Exchange Room before I close. I have just been informed, officially, that the settling rate has been fixed at thirty-five.

A good deal has been said touching two prologues manuscripts which, in 1589, used to lie on the table of Catherine de' Medici. These and others were said to have been perished. We now learn that all that Queen's MSS. and books are in the Imperial Library in Paris. The "Abus du Monde" and the "Prophecie des Sibyllas" are described as being of great beauty, the latter particularly in its illustrations. The books on magic and astrology—sciences in which Catherine was particularly interested—abound in this collection. They must have lain well hidden, for their existence was not known to the late Mr. Ascham, who had a liking for books of that description.

Now is the TIME to repair the inroads made upon the physical strength by the heated term which has closed with September. The vitality that has been oozing through the pores in the form of perspiration, for the last three months, requires to be replaced, as a preparative to the cold season which makes such disastrous havoc with relaxed and untuned systems. The reserve of vigor with which the stoutest man commences the summer campaign is drained out of him at its close, and unless by some means he acquires a new stock of vital energy wherewith to encounter the shock of a colder season, he may droop and wither like the falling leaves whose life-juices are exhausted. If it is thus with the strong, how much more perilous is the condition of the weak and ailing! Their reason must suggest to them, more forcibly than these printed words, the necessity for invigoration, and the world having decided, after an experience of almost a quarter of a century, that HOSKETT'S STOMACH BITTERS embrace such restorative properties as are not possessed by any other tonic and alternative preparation in existence, the importance of resorting to that great RENOVATOR and REGULATOR of the HUMAN MACHINE, at this critical season, is as obvious as the light of day. Let all who desire to escape an attack of chills and fever, bilious remittent fever, dysentery, diarrhoea, dyspepsia, rheumatism, hypochondria, or any other of the diseases of which the fall season is the prolific parent, have recourse promptly to this celebrated preventive and restorative.

SUNSHINE! SUNSHINE! We claim the following among our improvements:— 1. It is so constructed that ONE THIRD MORE OF THE RADIATING SURFACE EXTENDS INTO THE ROOM, giving that much more additional heat without extra fuel. 2. It is the only WARM AIR FIREPLACE HEATER in the market. Like the regular built boiler Heater, it loses no heat, but confines it all to its legitimate purposes. 3. The fuel magazine is DOUBLE the usual size, extending from the fire-box to the top of the stove, with capacity for twenty-four hours' supply of coal. 4. The patent DOUBLE COVER FOR COAL MAGAZINE consumes the gas, prevents escape of gas into the room, and makes it impossible for any puffings or explosions to occur. This is an advantage possessed by no other fireplace heater in the market. 5. There are THREE AIR CHAMBERS, wherein a brisk circulation is kept up, drawing the cold air in the room through heated flues INTO A LARGE HOT AIR RESERVOIR, at the back of the stove. 6. No side-pipes are used, as the air is heated in a RESERVOIR HAVING DOUBLE RADIATING FLUES AND DOUBLE BACK, supplying large quantities of hot air, without waste of heat or fuel. 7. The SUPERSTOVE utilizes the waste heat so thoroughly that we frequently use an adjoining room on the first, besides heating the tops in the second and third stories. 8. A damper on the top of the stove, connected with the boiler for the USE OF EITHER THE UPPER OR LOWER ROOMS. All other fireplace stoves are very inconvenient in this respect. 9. The Grate is self-cleaning, and NO DUST CAN ESCAPE while shaking it. 10. All parts of this stove are made from the very best materials, and in the most substantial manner, ALL UNDER THE SUPERINTENDENCE OF THE PATENTEE.

FINANCIAL. THE FIRST MORTGAGE BONDS OF THE UNION PACIFIC RAILROAD CO. INTEREST 6 PER CENT. IN GOLD.

The Union Pacific Railroad has been in successful operation since May 10, and it is pronounced, by the thousands who have passed over it, to be in all respects as safe and well built as any railroad in the country. By the Pullman Palace Cars the journey is not only made without danger, but without unusual fatigue. The fears that many have expressed in relation to the perils of the overland trip are removed by experience, and the travel is steadily increasing. The earnings of the road since its opening are officially stated by the Company as follows:— From May 10 to May 31.....\$21,480 19 The First Mortgage Bonds of the Company amount to \$28,516,000, and the interest liability, to \$1,728,960, gold, or about \$2,334,096 in currency. It will be noticed that the present earnings provide an ample fund for the payment of this interest and leave a large surplus. We are also satisfied that, at present market rates, these bonds are a very desirable investment, and that they will advance in price as soon as the facts concerning the business and condition of the Company are generally understood.

Eight Million Dollars a Year. Which will be steadily augmented by the development of the Pacific Coast, by settlement along the line, and by the natural increase of traffic. The First Mortgage Bonds of the Company amount to \$28,516,000, and the interest liability, to \$1,728,960, gold, or about \$2,334,096 in currency. It will be noticed that the present earnings provide an ample fund for the payment of this interest and leave a large surplus. We are also satisfied that, at present market rates, these bonds are a very desirable investment, and that they will advance in price as soon as the facts concerning the business and condition of the Company are generally understood.

The Land Grant Bonds. To the amount of Ten Million Dollars, were issued to obtain means to finish the road, and are secured by A FIRST MORTGAGE. Upon the entire Land Grant of the Company, amounting to 13,824,000 acres. Three million acres of this land in the Platte Valley, in Nebraska, are admitted to be equal to any in the West. The sales of land were opened in Omaha July 27, and 40,000 acres were sold during a month thereafter, at an average price of over \$50 per acre. While a part of the remainder of the land is of little value for agricultural purposes, there is another part from which a considerable sum will be realized. The value of the Land Grant is largely enhanced by the extensive coal mines, which are now being worked for the supply of the surrounding country, as well as for the railroad, and by other valuable mineral deposits, especially of copper.

THE LAND GRANT BONDS ARE RECEIVED IN payment for all the Company's lands, at par, and the demand from actual settlers will give them a certain market. They run twenty years and pay seven per cent. interest in currency. Although the Company have disposed of all their bonds, yet, as they are offered in market, we continue to fill orders at the current rates. We have no hesitation in recommending both the First Mortgage and the Land Grant Bonds as a very valuable and perfectly safe investment. DE HAVEN & BRO., BANKERS, 9 29 2mwp No. 40 S. THIRD STREET.

FIRE AND BURGLAR PROOF SAFE HERRING'S CHAMPION SAFES. THE BURNING OF EARLES' ART GALLERY.

PHILADELPHIA, September 1, 1869. Messrs. FARREL, HERRING & CO., No. 629 Chestnut Street. Gentlemen—We have just examined, with the very greatest satisfaction, our Safe, purchased of you some years ago, and which passed through our destructive fire of last night. We find the contents, without exception, entirely unharmed, merely slightly damp, and we feel now in a condition to commence our business again, having every book perfectly safe. We shall in a few days require a larger one, and will call upon you. Very respectfully, JAMES S. EARLE & SONS.

FARREL, HERRING & CO., No. 629 CHESTNUT STREET, PHILADELPHIA. CHAMPION SAFES. PHILADELPHIA, August 27, 1869. Messrs. FARREL, HERRING & CO. Gentlemen—In the year 1856 I unfortunately was in business in the Artisan Building, which was destroyed by fire on the 10th of April. I had then in use what I supposed was a Fire-Proof Safe, but upon opening it I found everything destroyed, and fire burning therein. You will recollect, gentlemen, there was several of your Safes in that fire, also several in the fire at Sixth and Commerce streets, the next May, five weeks afterwards, all of which upon being opened proved they were fire-proof indeed, for I witnessed the opening of the most of them, and in every case the contents were preserved, while Safes of other makers were partially or entirely destroyed. I at once concluded to have something that I could depend upon, and purchased one of your Safes. The safe I purchased of you at that time was subjected to a white heat (which was witnessed by several gentlemen that reside in the neighborhood) at the destruction of my Marble Paper factory, 221 Wallace street, on the afternoon and evening of the 24th inst. After digging the safe from the ruins, and opening it this morning, I was much pleased to find everything, consisting of books, papers, money and silverware, all right. I shall want another of your safes as soon as I can get a place to continue my business in. I could not rest contented with any other make of safe. CHARLES WILLIAMS, Marble Paper Manufacturer.
